

Bacterial Vaginosis

Diagnosis

Amsel Criteria - 3/4

1. Yellow discharge
2. Clue cells in wet mount
3. pH > 4.5
4. Fishy odor ÷ KOH

Complications

PrePROM
Chorioamnionitis

Rx

Metronidazole 400mg bd 1w

Trichomoniasis

Diagnosis

Motile organisms

Symptoms

Yellow-Green Frothy discharge
Pruritus

Rx

Metronidazole

Leucorrhea

No infection or pruritus
In adolescents
Long period

Chancroid

Haemophilus ducreyi

Painful ulcer

LN +

Granuloma inguinale

Klebsiella

Painless ulcer → Painful

Bx → Donovan Bodies

Rx

Azithromycin

Candidiasis

Diagnosis

Direct smear - Budding Yeast

Gram +

Culture in FW medium

Symptoms

Itching/ **Pruritus**

Curdy white discharge

Predisposing Facts

Immunosuppression
DM
Vaginal douching
Bubble bath
Tight clothing
COC - Oestrogen
BS ABX

Rx

Fluconazole Oral

Clotrimazole Topical

Syphilis

Single painless ulcer

Diagnosis

1. VDRL
2. Fluorescent Treponema Ab

Rx

Benzathene, Benzylpenicillin
Doxycycline
Erythromycin (Pregnant)

Herpes

Multiple painful ulcers

Diagnosis

PCR
EM view of scrapings from ulcer

Rx

Acyclovir 200mg 5 times /d - 1w

	Chlamydia	Gonorrhea
Symptoms	White Mucoïd discharge	Purulent discharge
Features	Infect columnar epithelial cells	
Complications	Cervicitis, PID, Conjunctivitis, Proctitis, Lymphogranuloma venereum (Painless), Trachoma	Cervicitis, PID, Conjunctivitis, Urethritis
Swab	Endocervical	
Diagnosis	PCR (NAAT) ELIZA	Gram Stain Gram negative intracellular diplococci PCR Culture in blood agar
Rx	Doxycycline 100mg bd 1w Azithromycin 1g stat Erythromycin 500mg bd 2w	Ceftriaxone Cefixime Rx both partners Refrain from sex till complete
